

Areeba Liaquat

Software Developer · Frontend Development · Software Engineering

Karachi, Pakistan | +92 321 9704525 | areebaliaquat164@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Third-year Software Engineering student with real internship experience building responsive, cross-browser web interfaces using HTML5, CSS3, JavaScript, and Bootstrap. Solid understanding of SDLC, object-oriented design, and software construction principles, complemented by hands-on project work in Java and C#. Active in the developer community through GDG on Campus. Looking for a software development internship to deepen full-stack skills and contribute to a real engineering team.

INTERNSHIP EXPERIENCE

Frontend Developer Intern | [DeveloperHubs Corporation](#) — Karachi

2025 (1 Month)

- Developed responsive web interfaces using HTML5, CSS3, and Bootstrap; verified cross-browser compatibility and visual consistency across devices.
- Identified, documented, and tracked UI bugs; collaborated with the team to confirm fixes met design specifications.
- Followed SDLC practices including requirement review, feature implementation, and structured defect reporting.
- Gained practical experience working in a team development environment, improving communication and version-awareness skills.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Java, C# (basic), MySQL (basic), MERN Stack

Frameworks & Tools: Bootstrap, jQuery, Node.js (basic), Selenium WebDriver, NUnit

Design Tools: Figma (Wireframing & Prototyping), Canva

CMS & Platforms: WordPress (Customization & Management), Netlify, GitHub

Concepts: SDLC, OOP, Design Patterns, Software Requirements Engineering, Responsive Design

PROJECTS

Bazaar.app — Automated Test Suite

Automated functional testing of Bazaar.com (Pakistani grocery platform) covering all key user flows. Reduced manual testing overhead with repeatable, reliable test suites. [GitHub](#)

- Stack: C#, Selenium WebDriver, NUnit · Domain: Test Automation / QA Engineering

Etar Restaurant — Responsive Landing Page

Designed and built a one-page restaurant site with full mobile responsiveness and attention to UI consistency across screen sizes.

[Live](#) | [GitHub](#)

- Stack: HTML, CSS, Bootstrap

NEX GEN — Corporate Website

Multi-section corporate landing page demonstrating Bootstrap grid mastery, component structure, and clean UI hierarchy. [Live](#) | [GitHub](#)

- Stack: HTML, CSS, Bootstrap

Triple Strike — Tic-Tac-Toe Game (Java)

Java GUI application featuring a computer AI opponent and a symbol-selection welcome screen. Demonstrates OOP principles and basic game logic. [GitHub](#)

- Stack: Java, Swing GUI · Concepts: OOP, AI logic, event handling

EDUCATION

B.S. Software Engineering — 3rd Year | [Jinnah University for Women, Karachi](#)

Expected 2028

- CGPA: 3.10 (2nd Year) | Current Semester: 5th
- Key Courses: Software Requirements Engineering · Software Construction & Design Patterns · SDLC · OOP

LEADERSHIP & COMMUNITY

Graphic Design Team Member | [GDG on Campus \(Google Developer Group\)](#)

Jan 2026 – Present

- Produced visual assets and event branding for a campus developer community, maintaining consistent identity across digital channels.

Media Lead & Web Developer | [University Welfare Society](#)

2025 – Present

- Owned the society's website UI end-to-end; designed and published all digital media content and social graphics.

CERTIFICATIONS

- Certificate of Participation — Tech Talk in English Online Panel Discussion, organized by English with Komal (January 2026)
